Corrigendum: A xandarellid artiopodan from Morocco – a middle Cambrian link between soft-bodied euarthropod communities in North Africa and South China

Javier Ortega-Hernández, Abdelfattah Azizi, Thomas W. Hearing, Thomas H. P. Harvey, Gregory D. Edgecombe, Ahmid Hafid & Khadija El Hariri

Scientific Reports 7:42616; doi: 10.1038/srep42616; published online 17 February 2017; updated on 09 May 2017

This Article contains errors in Figure 7. The correct Figure 7 appears below as Figure 1 with a corrected Figure legend and additional references:

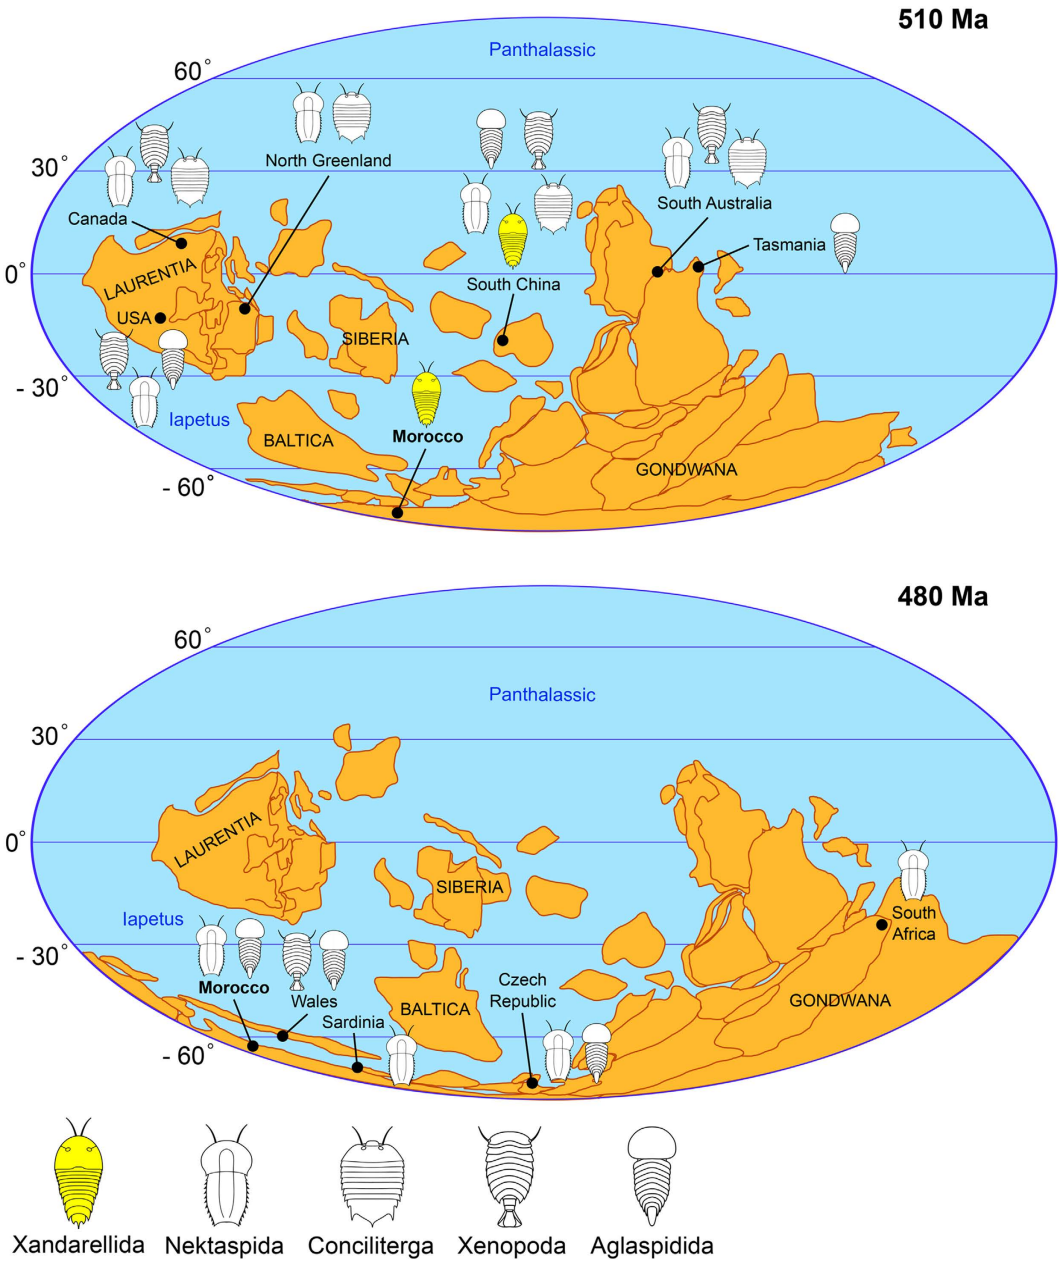

Figure 1. Palaeobiogeographical distribution of major groups of Lower Palaeozoic Artiopoda during the Cambrian and Ordovician. *Xandarella mauretanica* sp. nov. represents the only member of Xandarellida reported outside South China, and expands the distribution of this clade to the Southern Hemisphere. References for Cambrian localities: Laurentia[23,39,51,58–61]; North Greenland[40,62;] Morocco (this study); South China[2,63–65]; South Australia[9,10,66]; Tasmania[67]. References for Ordovician localities: Wales[69,70]; Morocco[54,56,71]; South Africa[72]; Sardinia[1]; Czech Republic[2,68]. Palaeocontinental reconstructions based on Torsvik and Cocks[73] (Fig. 2.8, 2.11) using Adobe Illustrator CC 2015.3 (http://www.adobe.com/uk/products/illustrator.html).
